WASHINGTON, August 31—A stamp tax on soft drinks as well as beer and patent medicines is contemplated by members of the House Ways and Means Committee, which is preparing an emergency internal revenue bill to offset Treasury losses due to the curtailment of imports. It is urged that soft drinks are as much luxuries as wines or beer, and that an equitable distribution of the tax burden among all consumors would be accomplished by this plan.

Another suggestion is a stamp tax of 5 or 10 per cent on railroad tlekets and admission to theatres, baseful allowed and to the Senate before the end of the week, and his nomination will be sent to the Senate before the end of the week, and his nomination will be quickly confirmed.
